

Name: _____

Instructions

For this homework you will be observed by another TA. This TA does not need to be a TA from CS301. **Before the section**, discuss with your observer what they are interested in improving about your teaching. You can provide them the evaluation form from Homework 4A if you think that the structured feedback would be helpful. You might share some of the comments from your first round of feedback from the students. After the section discuss the feedback and opportunities for improvement.

What are two things you want to change/try based upon the feedback from another TA?
