EE 105 LAB MANUAL

Table of Contents

1. Lab Policies

2. Microelectronic Devices and Circuits Laboratory
   • MicroLinear BiCMOS Chip Set Overview
   • SPICE Level 1 models for MOSFETs and BJTs
   • Pinouts for Laboratory Chipset
   • Circuit schematics for Lab Chips 1-6

3. Spring 2002 Experiments

   Experiment 1 — Introduction to PSPICE
   Experiment 2 — Introduction to Electronic Test Equipment
   Experiment 3 — The Curve Tracer
      HP 4155A/B Instrument Manual, pp. 4-10 -- 4-39, 3-70 -- 3-77, 5-2 -- 5-23
   Experiment 4 — IC Resistors
   Experiment 5 — MOS Device Characterization
   Experiment 6 — Bipolar Junction Transistor Characteristics
   Experiment 7 — Single Stage Amplifiers with Passive Loads — MOS
   Experiment 8 — Single Stage Amplifiers with Passive Loads — BJT
   Experiment 9 — Frequency Response
   Experiment 10 — Current and Voltage Sources
   Experiment 11 — Multistage Amplifiers

4. Appendices

   Basic Circuit Analysis
   Sinusoidal Analysis & Phasors
