

# Exercise 5: Walk Cycle

- Make sure to include the 4 important poses:
  - Contact
  - Recoil / Low-point
  - Passing
  - High-point

# Exercise 5: Walk Cycle

- Animate a walk cycle of a figure with at least 4 limbs (e.g., 2 legs & 2 arms)
- Side view, moving across the page
- 4 strides minimum
- You may additionally do a treadmill version

# Exercise 5: Walk Cycle

- Insert one in-between after each of the 4 key poses
  - Makes 8 frames per stride, 16 per cycle
- Minimum of 4 strides (2 cycles) = 32 frames
- Easier to copy & paste the repeated cycle

# Tips:

- Remember to start at the edge of the page so that you have enough room for 4 strides
- Don't draw a stick figure -- it will be too difficult to distinguish the limbs

# Recommended Reading:

- Williams
  - pp. 102 - 215 (can stop after 30 pages or so)
